CASE NO.
2013-00041

WEST CARROLL WATER DISTRICT'S
STATUS REPORT

** ** * * * * *

Comes now the West Carroll Water District ("WCWD"), and files this Status Report with the Public Service Commission of Kentucky ("Commission"):

1. By Order entered on June 7, 2013, the Commission granted the WCWD authority to proceed with the proposed construction as set forth in Exhibit 1 to WCWD's June 7, 2013, supplemental response to the Commission Staff's request for information;

2. While it was envisioned that construction would be substantially completed at this time, in fact, there has been delay with this project due to a combination of factors, including:

a. There was only one bidder on the line work which required additional time to review the reasons for only one bid and to determine if the bid was responsive;

b. The project came in over budget and options for contract reductions had to be resolved;

c. Price reduction change orders were generated and approved through the Kentucky Department of Water which took some time to finalize; and,

d. The contractor was delayed in coming on site for the project due to time spent in negotiations regarding these matters.

3. Construction is now ongoing, with a "Notice to Proceed" having been given on July 26, 2013; and,

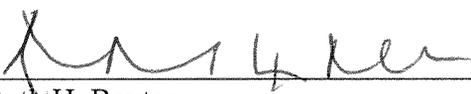

4. WCWD anticipates that the new completion date for construction will be April 18, 2014, instead of January 22, 2014.

WCWD advises the Commission of the status of this project so the Commission is aware that filing deadlines set forth in its Order entered June 7, 2013, will not be met until substantial completion of construction in early 2014.

WHEREFORE, the WCWD files this Status Report with the Commission and stands available to answer any additional requests for information regarding this project.
